

MOBILE BAY BASE

Extends it's appreciation for the support of the restoration of the USS Drum at Battleship Memorial Park in Mobile, Alabama

To the

TRIESTE BASE

It is up to us in the USSVI to preserve our Heritage and history of the Submarine Force for all to see and learn about what the submarines accomplished to preserve our freedoms. Without your support history would be lost. The USS Drum is the first Gato completed and the oldest left in the world and with your support we will be able to restore it to a like new condition that we can all be proud of and to actively participate in our creed to perpetuate the memory of our shipmates.

Tom Bowser
Mobile Bay Base Commander
